INDEX

TO THE

ISSUES OF 1929

OF THE

QUARTERLY JOURNAL.

A.

Air condition in withering lofts 11

B.

Bacteria, in tea 159
Bamboo pests and diseases 28
,, plantations 27
,, uses of— 29
Bamboos 21
,, list of— ... ... 31—33
,, propagation of— 25
,, species used in N. E. India 23
Biennial and annual pruning 63
Black Root Rot 1
,, ,, ,, depredations 2
,, ,, ,, history of— 1
,, ,, ,, remedies 21
,, ,, ,, treatment of— 1

C.

Caterpillar pests in Assam 134
Caterpillars in general 139
Ceylon, rainfall in— 149
,, withering lofts 15
Charcoal Stump Rot 3
,, ,, ,, description of— 4
,, ,, ,, history of— 3
,, ,, ,, remedies 5
Climate of North East India 146

D.

Dibrugarh district soils 121
Die back 68
,, depredations of— 72
,, description of— 69
,, history of— 68
,, remedies 73
Diseases in young nurseries, prevention of— 157
Dooars withering lofts 14
,, 1928 season in— 41
Doom Dooma district soils ... ...

E.

Factory requirements for the making of good tea 11
Fans, revolutions of firing machine— 18
Fermentation ... ... 17—51
,, space 17
Fermenting room atmosphere 51
Firing machines, capacities of— 18
Firing, second— 19
,, temperatures 18
Fungi on Tea Roots 1

G.

Green leaf sifting 17

H.

Humidification in Tea Factories 51
,, mechanical— 52
Humidity, measurement of— 58
,, tables. ... ... 59—60

K.

Kretzschmaria miscropus 6

L.

Lakhimpur, climate of— 111
,, development of industry in— 105
,, district, geography & geology 101
,, ,, map of— ... to face p. 101

L.—(*continued.*)

Lakhimpur, soils, manurial treatment of— 118
,, soil survey 101
,, ,, types 113

M.

Margherita district soils 139
Meteorological Observations in N. E. India, 1928 34

N.

Naharkatiya district soils 132
Neocoliyris crassicornis, Dejean 45
New Dooars Tea Co., specimen of borer from— 45
North East India, communications in— 84
,, rainfall in— 151
,, Tea in— 76, 146, 209
Nurseries, Prevention of disease in— 157

P.

Panitola district soils 124
Plucking experiments at Borbhetta in 1928 93
Power, factory requirements of— 20

R.

Rainfall at Tocklai, 1928 37
,, effect of forests on— 36
Rolling rooms, humidifiation of— 57
,, machines, capacity of— 17
,, ,, revolutions of— 17
,, rooms 16
,, tea 16
Rosellinia arcuata (Black Root Rot) 1

S.

Soil condition at Tocklai in 1928 39
Soil survey, Lakhimpur 101
Soils, tea—in N. E. India 209
Sorting room, humidity of— 20
,, of tea 20
South India, Rainfall in— 150

S.—(*continued.*)

Sphaerostilbe repens (Violet root rot) 6
Sunshine at Tocklai 38
Sylee, meteorological readings in 1928 43

T.

Tea bacteria 159
,, history of—in North East India 78
,, industry, organisation of— 80
,, in North India 76, 146, 209
,, planting of— 214
,, plucking of— 220
,, pruning of— 217
,, roots, fungi on— 1
,, statistics in N. E. India 87
,, varieties of— 77
Thyridaria tarda (*Botryodiplodia theobromae*) (die back) ... 68
Tiger Beetle, A— 45
Tingri district soils 130
Tocklai Clearance ... ...
Touring programme of Officers during 1930 224
Tung Oil 163

U.

Unpruned Tea 63
Ustulina Zonata (Charcoal stump rot) 3

V.

Varieties of tea, trial of— 64
Voilet Root Rot 6
,, ,, ,, description of— 7
,, ,, ,, history of— 7
,, ,, ,, remedies 9
Vortex Humidifiers 53

W.

Weather Chart for 1928 40
Withering, degree of— 13
,, factors affecting— 12
,, lofts 14
,, sheds 13
,, space 13
